July 19, 2024

To whom it may concern:

This letter is to provide the notification that MTI Corporation is the only manufacturer and the sole source provider for the Evaporating Coating Systems and their accessories which were quoted in the Quotation #6030799.

The prices mentioned in the Quotation #6030799 are equal for all customers in the United States of America which include the warranty.

Thank you for your attention.

General Manager

MTI Corporation

Justification of Sole Source Purchases

QUESTIONNAIRE

This Questionnaire has been designed by the Department of Procurement Services to guide faculty and staff in relaying information necessary to process requisitions on a non-competitive basis. Your cooperation in answering the questions listed below will assist us in handling such orders expeditiously.

1) Is this item required for use in
Research? Classroom? Lab? Other? _____

2) What features or functions are proprietary to this item? How are these dimensions or performance characteristics essential to the accomplishment of your work?

MTI GSL-1700X-SPC-2 thermal evaporator does not have unique features compared to others. A thermal evaporator system is a common tool in science and engineering.

3) List companies other than your suggested source which manufactures a similar item or an item with similar functions.

Angstrom Engineering Inc, Denton Vacuum.

4) Why won't these competing products be satisfactory?

There are only a few manufacturers in the market for low cost bench-top evaporator systems. They are priced near \$50k or above. MTI is a popular vendor in the US for scientific instruments. I (Prof. Park in Physics) purchased several items from MTI, and they have been proven reliable. This MTI model is the cheapest one for research.

5) Will the item be used with existing equipment? Yes No

If yes:

- | | | |
|--------------------------------------|---------------------------|--------------------------|
| - as a repair/replacement part? | <input type="radio"/> Yes | <input type="radio"/> No |
| - as an accessory or component? | <input type="radio"/> Yes | <input type="radio"/> No |
| - to match existing equipment? | <input type="radio"/> Yes | <input type="radio"/> No |
| - for reasons of interchangeability? | <input type="radio"/> Yes | <input type="radio"/> No |

If applicable, list Brand and Model number of existing equipment:

6) Give any additional information you feel may aid Procurement Services in processing this requisition.
